

VILLA MONSOGLIO

History - Luxury - Exclusivity

Since 1884 under the ownership of the noble Da Cepperello Pasquali family and currently owned by their heirs Gianluca and Marina Mosiici, Villa Monsoglio is a glitzy late 16th century residence that has been recently renovated under the tutelage of the Superintendency of Artistic and Architectural Heritage. The project has brought back to its original splendor of all the internal rooms, the extensive and attractive Italian garden and the magnificent chapel. The villa is full of history and has been the arena of illustrious masters of the Italian renaissance such as Buontalenti, who created the monumental entry staircase and Atanasio Bimbacci who, with his pupils, was responsible for the interior frescoes. Just a short distance from Arezzo, often the fabulous location for film and photographic sets, the Villa offers itself as a marvelous place for memorable weddings, conventions and special occasions. The organizational staff includes the expert Michelin-starred chef Donatella Zampoli, available to personalize every event with original and refined culinary specialties.
